Other considerations:

If you shoot film I recommend at least five rolls for one-day classes and twenty-five for multi-day classes.

My workshops focus on developing sound photographic technique and composition. You are welcome to shoot digital, color print film, black and white film, and/or slides. The type of image capture is not as important as developing good photographic skills.

The hiking for all workshops is generally minimal and easy, but I do recommend good sturdy shoes for all outdoor photography. As you probably know, weather can vary greatly during the course of the day. Be prepared and dress accordingly. I also recommend long pants for macro photography since you will likely be getting down on the ground for some subjects. For workshops involving water wading boots can also be a good idea.
